Dear Hiring Manager,

I am writing to express my interest in an internship opportunity at Siemens Healthineers AG. I am currently pursuing a Master of Engineering in Analytical Instruments, Measurement and Sensor Technology (AIMS) at Hochschule Coburg, Germany, and am required to complete a practical internship as part of my degree program. I am confident that my interdisciplinary background in computer science and engineering will allow me to contribute meaningfully to your team.

My academic focus, combined with practical experience, has given me a strong foundation in both software and engineering systems. As a Linux System Administrator at KV IT Solutions, I configured and maintained servers, automated workflows using Python and Bash, and deployed web applications — experience that sharpened my problem-solving skills and my ability to work effectively in technical environments.

As an Assistant Manager in the maintenance department at Medical Products Service, I gained valuable exposure to operational management, equipment handling, and team coordination. I developed a structured approach to troubleshooting and planning that I continue to apply in my engineering projects today.

I am also an active self-learner. Last semester, I worked on a machine learning project on exudate segmentation in retinal fundus images, applying deep learning techniques to a real-world medical imaging challenge. I have also designed an autonomous maze-navigation robot using Arduino and sensor integration, which deepened my interest in embedded systems and intelligent technologies.

I am adaptable, self-motivated, and enthusiastic about learning in dynamic environments. My international experience — studying and working across India, Germany, and China — has strengthened my ability to collaborate in multicultural, multilingual teams.

I would welcome the opportunity to contribute to your team and apply my knowledge in a practical setting. I would be glad to discuss my application further at your convenience.

Thank you for your time and consideration. I look forward to hearing from you.

Best regards,
Aman Suri
M.Eng. Student – AIMS, Hochschule Coburg
